## DETAILED ACTION

### *Election/Restrictions*

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 13-17, 19 and 26, drawn to a composition comprising a powder of fat/enzyme particles and flour.

Group II, claim(s) 20-25, drawn to a method for preparing bread, comprising a 2-step process for preparing particles of different sizes, and the mixing of said particles with dough, and the heating of said dough composition to make bread.

The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, *they lack the same or corresponding special technical features* for the following reasons: The method of Group II involves a two-step process to obtain the agglomerated particles of fat/enzymes, wherein the first step involves producing particles with a mean diameter less than 200 $\mu$ m, and the second step involves producing particles with a mean diameter greater than 250 $\mu$ m. Further, the method step involves the production of a baked (heated) bread product, which is also not required by the composition of Group I.

\*\*\* NOTE \*\*\* The method claims are deemed allowable over the prior art of record, and thus election of the method of Group II, and cancelation of the product claims, would result in allowance of the application. Note that this does not directly reflect upon a patentability decision of the product claims.

Art Unit: 1761

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
